1.	Code: PED-DE00-047 / M11_Edb_026 Description: Endotracheal double lumen tube with side port size 2.5	Code: 5516.25 Description: Standard endotracheal double lumen tube (transparent) with side port size 2.5, for routine anaesthesia or emergency intubation. Alternative: Code: 5520.25 Description: Soft endotracheal double lumen tube (Green) with side port size 2.5, to minimize tracheal damage during long-term intubation.	5,494	\$8.46	\$46,479.24
				\$8.46	
2.	Code: PED-DE00-048 / M11_Edb_027 Description: Endotracheal double lumen tube with side port size 3	Code: 5516.30 Description: Standard endotracheal double lumen tube (transparent) with side port size 3, for routine anaesthesia or emergency intubation. Alternative: Code: 5520.30 Description: Soft endotracheal double lumen tube (Green) with side port size 2.5, to minimize tracheal damage during long-term intubation.	4,219	\$8.46	\$35,692.74
				\$8.46	
3.	Code: PED-DE00-049 / M11_Edb_028 Description: Endotracheal double lumen tube with side port size 3.5	Code: 5516.35 Description: Standard endotracheal double lumen tube (transparent) with side port size 3.5, for routine anaesthesia or emergency intubation. Alternative: Code: 5520.35 Description: Soft endotracheal double lumen tube (Green) with side port size 2.5, to minimize tracheal damage during long-term intubation.	2,006	\$8.46	\$16,970.76
				\$8.46

au capital de 100 000 000 de francs suisses

4.	Code: PED-DE00-050 / M11_Edb_029 Description: Double lumen extension tube	Code: 841.264 Description: Double lumen Octopus with 2 Bionector and clamps. Polyurethane catheter extension tube, 2 equal lumen. Radiosterilized	1,215	\$7.377	\$8,963.055
----	--	--	-------	---------	-------------

Lumen	Int. Ø - Ext. Ø mm	Length cm	Priming volume ml	Flow rate ml/min
Lumen 1 and 2	1.5 - 2.5	10	0.2	170

5.	Code: PED-DE00-055 / M11-Edb-034 Description: Double lumen umbilical catheter size 5	Code: 1274.17 Description: Double-lumen umbilical catheter. Venous catheter in fully radiopaque polyurethane with distal eye and lateral eye. Rounded distal tip.	2,095	\$44.941	\$94,151.395
----	---	---	-------	----------	--------------

Centimetre graduations 4 to 25 cm from distal tip. Proximal extension tubes (PUR) length: 5 cm, with clamp.

- Reduces the number of subsequent peripheral routes required
 - Fewer attempts at peripheral insertion required: increases the comfort of neonates.
- Presented in a in a rigid tubular pack (code 1274).
